

Makayla Martinez

Dear, Mitch Mungai

Hi my name is Makayla Martinez
The most that interest to me
is your front cover. I love
your animal. And also I can't even
draw like that. And the stuff
you like to play like foot ball, tennis,
and eat chips. I love to do those
things too. And your picture
of that house and the dry
grass, it is so like awesome.

OK, now I'm ready to answer
your questions.

1. It actually hides in the
grass land.

2. It is tall and dry.

3. Yes. It migrates to look for food.

Sincerely,

Makayla Martinez
